The accompanying notes are an integral part of these financial statements.

1. Nature of operations and going concern

Melkior Resources Inc. (the ''Company''), incorporated under the *Business Corporations Act* (Canada), is a junior mining exploration company operating in Canada. The Company's operations include the acquisition and exploration of mineral properties in Canada. The address of the registered office is Bentall 5, 550 Burrard Street, Suite 1008, Vancouver, British Columbia, Canada, V6C 2B5, and its principal place of business is 207 – 66 Brousseau Avenue, Timmins, Ontario, Canada, P4N 5Y2. The Company's shares are listed on the TSX Venture Exchange ("TSX-V") under the symbol "MKR", on the OTC Exchange in the United States under the symbol "MKRIF" and on the Frankfurt Stock Exchange under the symbol "MEK".

These financial statements have been prepared on the basis of accounting principles applicable to a going concern, which assumes that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations.

The Company has incurred a net loss during the six months ended February 28, 2026 of $451,698 (six months ended February 28, 2025 - net loss of $866,824) and has a deficit at February 28, 2026 of $56,275,886 (August 31, 2025 - $55,824,188), has limited resources, no sources of operating cash flow and no assurances that sufficient funding will be available to continue operations for an extended period of time. The Company is in the exploration stage and, accordingly, has not yet commenced revenue-producing operations. These events and conditions indicate that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern.

The application of the going concern concept is dependent upon the Company's ability to satisfy its liabilities as they become due and to obtain the necessary financing to complete the exploration and development of its mineral property interests, the attainment of profitable mining operations or the receipt of proceeds from the disposition of its mineral property interests. Management is actively engaged in the review and due diligence on opportunities of merit in the mining sector and is seeking to raise the necessary capital to meet its funding requirements. There can be no assurance that management's plan will be successful.

If the going concern assumption were not appropriate for these financial statements then adjustments may be necessary in the carrying value of assets and liabilities, the reported expenses and the statements of financial position classifications used. Such adjustments could be material.

There are many external factors that can adversely affect general workforces, economies and financial markets globally such as global health conditions and political conflict in other regions. It is not possible for the Company to predict the duration or magnitude of the adverse results of these factors and its effects on the Company's business or ability to raise funds.

2. Basis of presentation

(a) Statement of compliance

The unaudited condensed interim financial statements of the Company have been prepared in accordance with International Accounting Standard 34 *Interim Financial Reporting*.

The unaudited condensed interim financial statements of the Company should be read in conjunction with the Company's audited financial statements for the year ended August 31, 2025, which were prepared in accordance with IFRS® Accounting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB").

These unaudited condensed interim financial statements were reviewed by the Audit Committee and approved and authorized for issue by the Board of Directors on April 29, 2026.

2. Basis of presentation (continued)

(b) Basis of measurement

These unaudited condensed interim financial statements have been prepared under the historical cost basis, except for financial instruments measured at fair value. These financial statements have been prepared under the accrual basis of accounting, except for cash flow information.

(c) Functional and presentation currency

The unaudited condensed interim financial statements are presented in Canadian dollars, which is also the functional currency of the Company.

(d) Critical accounting estimates and judgments

The Company makes estimates and assumptions about the future that affect the reported amounts of assets and liabilities. Estimates and judgments are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the future, actual experience may differ from these estimates and assumptions.

The effect of a change in an accounting estimate is recognized prospectively by including it in comprehensive income in the year of the change, if the change affects that year only, or in the year of the change and future years, if the change affects both.

Critical judgments in applying accounting policies

Information about critical judgments in applying accounting policies that have the most significant risk of causing material adjustment to the carrying amounts of assets and liabilities recognized in the financial statements within the next financial year are discussed below:

Accounting policy for exploration and evaluation expenditures

The Company's projects are at an early stage, and the technical feasibility and commercial viability of its mineral resources have not yet been demonstrated. Management has concluded that expensing all exploration and evaluation expenditures provides the most reliable and relevant financial information. This approach reflects the high uncertainty of recovery and the dependence on factors such as future exploration success, availability of financing, commodity prices, regulatory approvals, and maintenance of exploration rights.

Title to mineral property interests

Although the Company has taken steps to verify title to mineral properties in which it has an interest, these procedures do not guarantee the Company's title. Such properties may be subject to prior agreements or transfers and title may be affected by undetected defects.

Fair value of marketable securities

The determination of the fair value requires significant judgement by the Company. The Company acts in good faith to fair value its marketable securities on the date of purchase and on a quarterly basis thereafter, consistent with fair value accounting guidance in accordance with IFRS 13, Fair Value Measurement.

2. Basis of presentation (continued)

Key sources of estimation uncertainty

The following are key assumptions concerning the future and other key sources of estimation uncertainty that have a significant risk of resulting in material adjustments to the financial statements.

Decommissioning liabilities

Rehabilitation provisions are created based on the Company's internal estimates. Assumptions, based on the current economic environment, are made which management believes are a reasonable basis upon which to estimate the future liability. These estimates take into account any material changes to the assumptions that occur when reviewed regularly by management. Estimates are reviewed annually and are based on current regulatory requirements. Significant changes in estimates of contamination, restoration standards and techniques will result in changes to provisions from year to year. Actual rehabilitation costs will ultimately depend on future market prices for the rehabilitation costs which will reflect the market condition at the time the rehabilitation costs are actually incurred. The final cost of the currently recognized rehabilitation provisions may be higher or lower than currently provided for. As at February 28, 2026 and August 31, 2025, the Company has no known rehabilitation requirements and accordingly, no provision has been made.

3. Material accounting policies

Accounting standards issued but not yet effective

Certain pronouncements were issued by the IASB or the IFRIC that are mandatory for accounting periods commencing on or after January 1, 2026.

Classification and Measurement of Financial Instruments (Amendments to IFRS 9 and IFRS 7)

In May 2024, the IASB issued amendments to IFRS 9 - Financial Instruments and IFRS 7 - Financial Instruments - Disclosures. The amendments clarify the derecognition of financial liabilities and introduces an accounting policy option to derecognize financial liabilities that are settled through an electronic payment system. The amendments also clarify how to assess the contractual cash flow characteristics of financial assets that include environmental, social and governance (ESG)-linked features and other similar contingent features and the treatment of non-recourse assets and contractually linked instruments (CLIs). Further, the amendments mandate additional disclosures in IFRS 7 for financial instruments with contingent features and equity instruments classified at FVOCI. The amendments are effective for annual periods starting on or after January 1, 2026.

Presentation and Disclosure in Financial Statements (IFRS 18)

In April 2024, the IASB issued IFRS 18 - Presentation and Disclosure in Financial Statements to improve reporting of financial performance. The new standards replaces IAS 1 - Presentation of Financial Statements. IFRS 18 introduces new categories and required subtotals in the statement of profit and loss and also requires disclosure of management-defined performance measures. It also includes new requirements for the location, aggregation and disaggregation of financial information. The standard is effective for annual reporting periods beginning on or after January 1, 2027, including interim financial statements. Retrospective application is required and early adoption is permitted.

4. Share capital

(a) Authorized share capital

(i) an unlimited number of common shares without par value, voting and participating; and

(ii) an unlimited number of preferred shares with an 8% non-cumulative dividend, redeemable at the request of the Company at paid-up capital.

(b) Issued

<u>During the six months ended February 28, 2026</u>

There were no activities during the period.

<u>During the year ended August 31, 2025</u>

(i) On March 25, 2025, the Company issued 300,000 common shares (valued at $30,000) for the acquisition of additional claims in the Carscallen Property (see note 5(e)).

(ii) On June 12, 2025, the Company closed its non-brokered private placements raising total gross proceeds of $1,699,999 through the issuance of (i) 4,175,993 units at a price of $0.15 per unit for gross proceeds of $626,399, and (ii) 6,606,770 flow-through common shares at a price of $0.1625 per share for gross proceeds of $1,073,600. Each unit consists of one common share in the capital of the Company and one-half of one common share purchase warrant. Each warrant entitles the holder thereof to acquire one additional share at a price of $0.22 per share for a period of 2 years from the date of issuance. In connection with the private placement, the Company paid cash finders' fees of $75,571 and issued 480,434 finders' warrants. The finders' warrants are exercisable at $0.22 per share for a period of 2 years from the date of issuance.

The 480,434 finders' warrants were assigned a grant date fair value of $31,555 as estimated by using the Black-Scholes valuation model with the following assumptions: expected dividend yield of 0%, expected volatility of 121%, which is based on historical volatility of the Company's share price, risk-free rate of return of 2.68% and an expected maturity of 2 years.

The premium paid by investors was calculated as $0.0175 per share, and accordingly, $115,618 was recorded as flow-through share liability. During the six months ended February 28, 2026, $23,710 was derecognized as reversal of flow-through share liability and the flow-through share liability has been reduced to $80,769.

(iii) On July 3, 2025, the Company issued 750,000 common shares (valued at $101,250) for the acquisition of Beschefer East Project (see note 5(d)).

(Expressed in Canadian Dollars)

4. Share capital (continued)

(c) Stock options

The Company maintains a stock option plan (the "Plan") pursuant to which options to purchase common shares may be granted for its eligible directors, officers and employees of the Company, as well as persons providing ongoing services to the Company.

The number of shares to be delivered upon the exercise of all options granted under the Plan shall not exceed 10% of the aggregate number of common shares of the Company issued and outstanding.

In the event that an optionee ceases to be an eligible person prior to the expiry date of their respective options, the options shall expire 12 months after the termination date or on the expiry date, whichever comes first (except for persons providing investor relations activities who will remain subject to a 30-day expiry period). In the event of termination with cause, the options of an eligible person shall expire on the date of notice of termination.

The purchase price of the common shares, upon exercise of each option granted under the Plan, shall be a price fixed for such option by the Board of Directors upon grant of each such option, but such price shall not be less than the market price at closing of transactions the day prior to the grant or any other regulations by the TSX-V. Each option, unless sooner terminated in accordance with the terms, conditions and limitations thereof, or unless sooner exercised, shall expire on the date determined by the Board of Directors when the option is granted or, failing such determination, not later than upon the tenth anniversary of the grant of the option.

The total number of options granted to any one individual in any 12-month period will not exceed 5% of the issued common shares. The total number of options granted to a consultant in any 12-month period will not exceed 2% of the issued common shares at the time of grant. The total number of options granted to persons providing investor relations activities in any 12-month period will not exceed 2% of the issued common shares at the time of grant. These options must vest in stages over a 12-month period from the date of grant with no more than 25% of the options vesting in any three-month period.

A summary of changes of the Company's common share purchase options is presented below for the periods ended February 28, 2026 and 2025:

The property is subject to a NSR of up to 2.5% on certain claims made up of a historical NSR of 1.5% and 1% granted to the vendor.

5. Exploration and evaluation expenditures (continued)

<u>Ontario</u>

(e) Carscallen

The Company holds a 100% interest in the Carscallen property, west of Timmins, Ontario. Some claims are subject to a 1.5% NSR while another group of claims is subject to a 2% NSR, of which the Company may buy back one-half for $1,000,000.

In October and November 2010, the Company signed three agreements to acquire 100% interests in additional mining claims in consideration of $10,000 cash and two 2% NSR royalties, of which 1% can be repurchased for $500,000 each.

In October 2013, the Company signed a memorandum of understanding (“MOU”) with the Mattagami First Nations. The Company will pay 2% of all exploration costs eligible for assessment credit to the Mattagami First Nation.

On April 7, 2016, the Company acquired a 100% interest in an additional mining claim from an arm’s length party, subject to a 2% NSR. The Company may purchase 0.5% of the NSR for $500,000 and a first right of refusal to purchase the remaining 1.5% NSR.

During the year ended August 31, 2017, the Company acquired additional claims through cash purchase agreements and staking. One of the claims is subject to a 2% NSR.

During the year ended August 31, 2018, the Company entered into three agreements for the purchase of six additional claims for the Carscallen property. Two of the claims are subject to a 2% NSR.

On May 6, 2020, the Company entered into an option agreement of 6 cell units (the "Carscallen Claims"). Pursuant to the option agreement, the Company acquired 100% interest in the Carscallen Claims, subject to a 3% NSR. The Company may purchase one-half of the NSR at any time for the sum of $1,000,000.

On February 28, 2025, the Company announced that it entered into an agreement to acquire a 100% interest in an additional 76 mineral claims located on the northwest boundary of the Carscallen Property. In consideration, the Company will make a cash payment of $10,000 and issue 300,000 common shares of the Company (completed). The claims are subject a 2% NSR. The Company may purchase 1% of the NSR at any time for the sum of $1,000,000.

(f) Hemlo

On May 12, 2017, the Company entered into an agreement to acquire a 100% interest in the Hemlo property. The vendor holds a 3% NSR, of which one-third may be purchased by the Company for $1,000,000.

During the year ended August 31, 2017, the Company acquired additional claims through cash purchase agreements and staking.

5. Exploration and evaluation expenditures (continued)

(g) Genex

On April 19, 2022, the Company entered into an option agreement with International Explorers & Prospectors Inc. ("IEP") to acquire 100% of the Genex Project, located near Timmins, Ontario. The Genex option agreement was approved by the TSX-V in July 2022. Under the terms of the option agreement, in consideration for an undivided 50% interest in the property (the "First Option"), the Company must:

- make a cash payment of $50,000, issue 500,000 common shares, and contribute $500,000 in assessment credits from the Company's Carscallen Project within 20 days from the Effective Date (completed);
- make a cash payment of $50,000, issue 500,000 common shares, and incur $750,000 in aggregate work expenditures on or before the first anniversary of the Effective Date (completed);
- make a cash payment of $50,000, issue 500,000 common shares, and incur $1,750,000 in cumulative work expenditures on or before the second anniversary of the Effective Date (second anniversary obligations suspended at the election of the Company in line with terms and conditions of Agreement); and
- make a cash payment of $100,000, issue 1,000,000 common shares, and incur $2,750,000 in cumulative work expenditures on or before the third anniversary of the Effective Date (third anniversary obligations suspended at the election of the Company in line with terms and conditions of Agreement).

The agreement has an Effective Date of April 28, 2022 for all anniversary payments.

The vendor is also permitted to remove $500,000 each in assessment credits from the Genex Project during years 2 and 3.

In consideration for the additional 50% interest in the property (the "Second Option"), the Company must at any time after exercising the First Option make a one-time issuance of 2,500,000 common shares. If the Second Option is exercised, then the Company will own a 100% interest in the property and the vendor will retain a NSR of up to 2% calculated as the difference between 2% and any amounts payable pursuant to any existing royalties.

During the year ended August 31, 2025, the Company and IEP appointed an arbitral tribunal to determine the parties' rights and obligations under their option agreement (see note 8).

6. Related party transactions

The Company’s related parties include companies controlled by officers and close family members of directors and key management, as described below.

Unless otherwise stated, none of the transactions incorporated special terms and conditions and no guarantees were given or received. Outstanding balances are usually settled in cash.

Total key management compensation	**$ 43,229**	$ 126,946	**$ 77,409**	$ 161,756

As at February 28, 2026, the balance due to related parties amounted to $41,265 (August 31, 2025 - $2,536) and was recorded in accounts payable and accrued liabilities.

(i) Management fees to the Company's former CEO are paid pursuant to a 2020 consulting agreement under which Silverwater Capital Corp., a company controlled by the Company's former CEO, receives a monthly fee of $6,250. The Company can terminate the agreement with three months' notice. The fees are recorded partially as exploration and evaluation expenditures.

(ii) During the three and six months ended February 28, 2026, the Company paid professional fees and regulatory fees of $24,479 and $39,909, respectively (three and six months ended February 28, 2025 - $23,940 and $40,000, respectively) to Marrelli Support Services Inc., DSA Corporate Services Inc., and Marrelli Trust Company Ltd., together known as the "Marrelli Group", for:

- An employee of Marrelli Group to act as the CFO of the Company;
- Bookkeeping services;
- Regulatory filing services;
- Corporate secretarial services; and
- Transfer agent services.

7. Commitment

In connection with the flow-through share financing in 2025, the Company has committed to incur qualifying Canadian Exploration Expenditures (as such term is defined in the Income Tax Act (Canada)) of a total of $1,073,600 by December 31, 2026. If the Company does not incur the required qualifying expenditures, it will be required to indemnify the holders of the flow-through shares for any tax and other costs payable by them as a result of the Company not making the required expenditures.

As at February 28, 2026, the Company is required to incur qualifying exploration expenditure exceeding approximately $750,000 by December 31, 2026.

(Expressed in Canadian Dollars)

8. Contingency

The Company is currently in arbitration with IEP regarding the Genex Property (see note 5(g)). The proceedings are ongoing and no decision has been rendered as at the reporting date. Claims and counterclaims have been asserted by the parties, and the outcome remains uncertain. Management is unable to determine the likelihood or amount of any potential obligation or recovery. Accordingly, no provision has been recorded.

9. Subsequent events

On April 9, 2026, the Company closed a non-brokered private placement raising total gross proceeds of $654,000 through the issuance of 5,450,000 units at $0.12 per unit. Each unit consisted of one flow-through common share in the capital of the Company and one-half of one common share purchase warrant. Each whole warrant entitles the holder thereof to acquire one additional share at a price of $0.20 per share for a period of 2 years from the date of issuance.

On April 10, 2026, the Company announced the appointment of Bernard Deluce as the CEO and a director of the Company. Jonathon Deluce resigned as the CEO but remains as a director of the Company.

10. Comparative figures

Effective September 1, 2024, the Company has voluntarily changed its accounting policy with respect to exploration properties, consistent with the guidance provided in IFRS 6 - Exploration for and Evaluation of Mineral Resources and IAS 8 - Accounting Policies, Changes in Accounting Estimates and Errors. Previously, the Company's policy was to defer exploration expenditures until such time as the properties are put into commercial production, sold or become impaired. To reflect the retrospective application of this change in accounting policy, comparative amounts have been adjusted as follows:
